

ALEENA JOMY

Python Backend Developer | Django | Django REST Framework | PostgreSQL

📞 +91 8547139184 ✉ aleenajomy4@gmail.com 🔗 linkedin.com/in/aleena-jomy 🐙 github.com/Aleenajomy 📍 Kannur, Kerala

Summary

Computer Science graduate with hands-on experience developing scalable backend applications using **Python, Django, Django REST Framework**, and **PostgreSQL**. Completed a Python Django internship building **RESTful APIs**, authentication systems, database driven applications, and API integrations while collaborating with frontend teams. Developed multiple backend-focused projects involving **JWT Authentication**, financial analytics, automation, and AI-powered document generation. Passionate about writing clean, maintainable code and eager to contribute as a **Backend Software Engineer**.

Experience

Python Django Developer Intern

Nov 2025 – Jan 2026

Zecser Business LLP (Remote)

- Engineered and maintained **15+ RESTful API endpoints** using Django REST Framework for authentication, user management, and workflow automation supporting approximately **500 daily requests**.
- Optimized PostgreSQL query performance by approximately **25%** using indexing strategies, SQL optimization, and query analysis across databases containing **10,000+ records**.
- Collaborated with React developers to integrate APIs, validate endpoints using Postman, and manage source code with Git workflows.

Projects

MoneySuivi – Personal Finance Management Platform | Node.js, Express.js, PostgreSQL, Prisma, React

May 2026

- Engineered a full-stack personal finance platform supporting expense tracking, budget planning, EMI management, borrow/lend records, asset tracking, and financial analytics.
- Built and maintained **20+ RESTful API endpoints** using Express.js and PostgreSQL for authentication, transactions, budgets, notifications, and reporting.
- Implemented **JWT Authentication**, recurring transaction automation, Progressive Web App (PWA) support, and push notifications for budget alerts and payment reminders.
- Designed interactive dashboards providing spending trends, category-wise analytics, and real-time net-worth visualization.
- GitHub:** github.com/Aleenajomy/MoneySuivi **Live Demo:** smartexpencetracker-frontend.onrender.com

Finder – Hyperlocal Worker Discovery Platform | Django, Django REST Framework, PostgreSQL, React

Apr 2026

- Developed a hyperlocal worker discovery platform enabling users to discover nearby service providers using location-aware search.
- Implemented **RESTful APIs**, CRUD operations, search, filtering, and pincode-based matching using Django REST Framework.
- Optimized PostgreSQL queries for faster data retrieval and deployed the application using Render and Vercel.
- GitHub:** github.com/Aleenajomy/Finder **Live Demo:** finder-swart.vercel.app

ResumeMaker – AI ATS Resume Optimizer | React, TypeScript, Django, PostgreSQL, LaTeX

Feb 2026 – Mar 2026

- Built an AI-powered ATS resume optimization platform that generates tailored resumes, cover letters, and job application documents from user profiles and job descriptions.
- Designed secure REST APIs, JWT authentication, PostgreSQL data management, and an automated LaTeX PDF generation pipeline.
- Implemented ATS keyword analysis to improve resume-job matching and automate resume optimization workflows.
- GitHub:** github.com/Aleenajomy/ResumeMaker **Live Demo:** <https://resume-maker-three-omega.vercel.app>

Skills

- Programming Languages:** Python, JavaScript, TypeScript, Java, C
- Backend Development:** Django, Django REST Framework, Node.js, Express.js, RESTful API Development, CRUD Operations, API Integration
- Frontend:** React.js, HTML5, CSS3, Bootstrap, Tailwind CSS
- Databases:** PostgreSQL, MySQL, MongoDB, Prisma ORM, SQL, SQL Query Optimization
- Authentication & Security:** JWT Authentication, Role-Based Access Control (RBAC), OWASP Basics
- Deployment & Cloud:** Render, Vercel, Docker (Learning)
- Version Control:** Git, GitHub, Git Workflow
- AI Tools:** ChatGPT, Claude AI, GitHub Copilot, Cursor AI, Gemini, OpenAI API, Prompt Engineering, AI-assisted Development
- Tools:** Postman, VS Code, Linux
- Core CS Concepts:** Object-Oriented Programming, Data Structures, Algorithms, MVC Architecture, SDLC, Agile Methodologies, JSON
- Languages:** English (Fluent), Malayalam (Native)

Education

B.Tech in Computer Science & Engineering

Sep 2022 – Apr 2025

Government Engineering College, Wayanad

Diploma in Computer Engineering

Aug 2016 – Apr 2019

Government Residential Women's Polytechnic College, Payyannur
